Laptops – for those who want to/have to use their own laptop: See Y11-13 Global Perspectives & ICT and Y12 Photography

Minimum recommended specifications for a student BYOD laptop at PCS 2021

This recommendation is based on the student doing general Windows and MS office plus some basic graphic and video editing tasks, and should easily last for the next 3-5 years doing so... for Students taking an advanced photographic editing course, add in a dedicated GPU (Graphics Processing Unit)

Must be PC (not iMac) to be able to natively run Microsoft software (especially MSAccess) OR iMac to be setup in BootCamp to dual boot Windows10 *[if you don't know what this mean you MUST buy a PC]*

- **Any version of Windows** (*school has an Education upgrade for windows 10 for any student needing it*)
- Minimum 8 GB Ram (16GB preferred)
- Minimum 256Gb **SSD** (drive storage)
- Minimum 15" Screen size

We would not like to suggest actual Brands or specific machines, but as examples below are two that will 'meet or exceed' the above specification (for comparison purposes)

\$890 <https://www.pbtech.co.nz/product/NBKASU509828B/ASUS-D509DA-BR828T-Laptop-156-HD-AG-Ryzen5-3500U-8>

\$1026 <https://www.pbtech.co.nz/product/NBKASU509599B/ASUS-VivoBook-X509JA-EJ599R-Laptop-156-FHD-Intel-i>

see under specific subjects where recommended for Y11-13 ICT and Global studies and compulsory for Y12 Photography
